

 **Wilsonart**[®]
LAMINATE

Kwik-Wall

Standard Wilsonart HPL finishes are designated with: ✓

For all other Wilsonart finishes, please contact your local Kwik-Wall Distributor for pricing.

ACTING BEYOND THE SURFACE

At Wilsonart®, we are committed to conscious craftsmanship. Sustainable manufacturing. Exceptional durability. A personal care throughout. Surfaces that reflect the values of architects, designers, and end users. Choose our surfaces with confidence, knowing they're engineered to last and are tested and third-party certified to help maintain a safe indoor environment.

Solve sustainably

Inspired by nature, but created without the impact. Through superior engineering, we provide methods and materials to solve your design challenges with recycled content, sustainably sourced components, and resource-efficient manufacturing.

Last beautifully

Stands up to everyday use, high traffic, and the maintenance demands of sensitive environments, like hospitals — without the waste of replacing a damaged surface before its time.

Care personally

Your greatest must-have for a space is well-being. Our HPL helps you take care of indoor air quality — so end users are better able to take care of their health.

WILSONART USED

616,000,000 lbs.

OF POST-CONSUMER RECYCLED CONTENT FROM 2000 TO 2020

ALL WILSONART POST-CONSUMER RECYCLED CONTENT IS SOURCED RESPONSIBLY FROM NORTH AMERICA.

SAVING MORE THAN

7,390,000

TREES

WILSONART CONTAINS ON AVERAGE

23%

POST-CONSUMER RECYCLED CONTENT — **2X MORE THAN OTHER LEADING LAMINATE BRANDS.**

ENOUGH TO COVER

147,818 acres

LARGER THAN THE SIZE OF CHICAGO, IL.

WILSONART® HIGH PRESSURE LAMINATE

We crafted our High Pressure Laminate (HPL) engineered surfaces to reflect the values of architects, designers, and end users. Durable Wilsonart® HPL surfaces not only help reduce waste over the life of a home or other building, they are designed with human health in mind. Choose our surfaces with confidence, knowing they're engineered to last and are tested and third-party certified to help maintain a safe indoor environment.

INNOVATIVE SOLUTIONS

Built directly into the laminate, Antimicrobial Protection defends the surface against damaging microbes such as mold and mildew that cause unpleasant odors. In combination with proper cleaning and disinfection protocols, protected surfaces can stay looking and performing better, longer. Antimicrobial Protection comes standard on all HD® finishes, and is available as an option on all other laminate designs.

5010K-07 DRAMA MARBLE
Crescent Edge

LAMINATE SURFACE TEXTURES

#01 HIGH GLOSS - PREMIUM

 A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical applications.

#07 TEXTURED GLOSS - PREMIUM

 A fine textured surface with a sheen level indicative of a waxed wood, polished stone, or other moderately reflective materials. Recommended for horizontal and vertical applications.

#15 FIELDSTONE - PREMIUM **NEW FINISH**

 This matte, stone finish has a mixture of low sheen, stone-like textural attributes layered across the surface. And layered on top are fine, irregular veins and features in a higher sheen which create natural contrast and dimensional organic detail.

#18 LINEARITY - PREMIUM

 A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical applications.

#22 ANTIQUE - PREMIUM

 A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical applications.

#35 MIRAGE - HD PREMIUM

  Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished. Recommended for horizontal and vertical applications.

#52 QUARRY - PREMIUM

 Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical applications.

#57 ALIGNED OAK* - HD PREMIUM

  Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical applications.

#78 FINEGRAIN - PREMIUM

 This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical applications.

#05 TIMBERGRAIN - PREMIUM

 A low-sheen wood finish with a dimensional, realistic ticking and natural variation across the surface texture, much like a natural veneer. Recommended for horizontal and vertical applications.

#12 SOFTGRAIN - PREMIUM

 A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical applications.

#16 CASUAL RUSTIC - PREMIUM

 A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical applications.

#19 LENO WEAVE* - PREMIUM

 Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss mix. Recommended for horizontal and vertical applications.

#28 GLOSS LINE - PREMIUM

 A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical applications.

#38 FINE VELVET TEXTURE

A smooth-textured finish with moderate reflective value. Recommended for horizontal and vertical applications.

#55 GLAZE - HD PREMIUM

  A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical applications.

#60 MATTE

Textured finish with a moderate reflective quality. Recommended for horizontal and vertical applications.

#79 RIDGEWOOD - PREMIUM

 An overall matte finish with ridged dimensional features creating a linear woodgrain effect. Recommended for horizontal and vertical applications.

*Not available in Textured Solids

Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

ANTIMICROBIAL PROTECTION is built into HD Premium finishes, to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces. Also available on other finishes during the ordering process.

To learn more about the countless design options available through Wilsonart® Laminate, visit wilsonart.com. For your convenience, most Wilsonart designs featured here are in stock and ready for immediate delivery from our distribution center. Sizes and finishes may vary. Call your Wilsonart distributor for availability.
